

/Users/fevange/Source
/forte/src/helpers/cube
_file.h

```
graph TD; A["/Users/fevange/Source  
/forte/src/helpers/cube  
_file.h"] --> B[string]; A --> C[vector]; A --> D[utility];
```

The diagram illustrates a file dependency structure. At the top is a gray rectangular box containing the file path `/Users/fevange/Source/forte/src/helpers/cube_file.h`. Three blue arrows originate from the bottom edge of this box and point downwards to three separate white rectangular boxes. The leftmost box is labeled `string`, the middle box is labeled `vector`, and the rightmost box is labeled `utility`. This indicates that the file `cube_file.h` depends on or includes these three components.

string

vector
